

# Month of Madness

Monday, December 22, 2008

**Recovery** was the word most used today - no one wanted a hard ride. You should be really sorry that you didn't come on this one! Up the highway to Galston Rd, along Somerville Rd and back to Bobbo with a lap at the top before cruising down to the bottom and a cruisey ride up the other side to coffee! I just doesn't get better than that! Well the Bobbo climb seemed to get faster and faster and the Garreth jettisoned himself and his bike all in one go. Caveman was starting to glow purple and the conversations became stuttered with large spaces between the words. And then finally Caveman saved the day - in the politest of ways (enough to make Oooooowen nod approval - but he wasn't there was he? - the slack *censored!*) pointed out to Lover Boy 1 and Chardonnay that this

was a recovery ride - and they slowed to 20 kph.

Tarzan slept in as did Kurt (but not together they assured me!) and

2 Mikes, 2 Steves, Chardonnay, 2 Jons, Kurt, Stewart, Richard, Matt H, UF Tremain, Rob M, Garreth & Meredith.

The others were healing from yesterday - like Tom who can barely stand today.

still made it so sleeping in isn't a valid excuse anymore. Lover Boy

*Tomorrow: up the highway - > BH - > Akuna and then home! Moderate Cruisey!*

2 described how he 'eats the fat of the customers sent to him for

weight reduction - but never the meat! - some kind of Canabalistic Vegetarian it seems - but stay away from him is my advice! He was found admiring his muscles when he mysteriously disappeared off the front at Somerville Rd.

Green P was seen training with someone else up Bobbo and copped greetings and disapproval specially about his hairy legs. Dick Measuuuuures has been renamed Drastic - something to do with his sex appeal I'm told! Oh well the Club has all sorts - he has approved all appendages to this name - like Tragic etc so feel free to use your imagination.

We had apologies from a number of wannabees and even an offer of money to put their names on the list of MOM survivors -sadly that can't be done (threshold is higher than the offers at the moment!).
