

37

Fittingly Day 37 dawned while Fester's car was being adorned with new number plates "37. 22 GO UF" Signifying the penultimate ride today in the Month of Madness with only two rides to go to the end for this year. One group of about 16 started today at 615 am and headed off on a recovery ride which thankfully it was. Sommerville road in single file so as not to antagonize the locals followed by 3 laps of the Top of Bobbo. News of the rivalry between Green P and Drastic has spread far and wide with the RTA placing a flashing warning sign for Green P at the park entrance. INSERT MEMORY CARD – Ok but where ? was the question posed by Mike I and Steve Brit. Not waiting for an answer which was obvious, the peloton finished the laps and climbed through Bobbo. No one was pushing hard, wanting to retain some energy for tomorrow.

The last day in the 38 day Month of Madness. It has gained such stature that it has been declared a public holiday
